BEING PRESIDENT OF THE UNITED STATES

The President of the United States has a difficult job and has to make important decisions. Some of these responsibilities include meeting with leaders of other countries, keeping the country safe, and deciding what laws to approve or reject. One fun decision they make is whether or not to have a pet live at the White House. See if you can find the pets who have lived in the White House by circling them below!

VOTING FOR CONGRESS

The United States Congress has two parts, the Senate and the House of Representatives. Each state votes for two Senators and a specific amount of Representatives based on the number of Congressional Districts assigned to that state. There are three numbers that make up the total number of Congressional Districts in the U.S. to represent all of the states. Can you figure out how many?

Find out the total number of Congressional Districts in the United States and put the numbers below in the correct order based on the total number of Districts.

It is very important to VOTE and one single vote can make all the difference. Laws are passed based on votes and a small number can make a big difference.

The faces below voted on a new law to decide whether all kids must now attend school online. One of the funny faces is missing a vote, help him vote by writing in "YES" or "NO"! Then count all of the votes below!

Some of these things are: choosing who to make class president; what community service project to do in school; what book to read at night; or what to name your team you are a part of. Kids Voting lets you practice voting for the President of the United States.
